

# INTREPID TRAVELERS

Founded on friendship, fun, and a sense of freedom, Intrepid Travelers is a musical quartet from Buffalo, NY that defines itself through boundless improvisation and eclectic evolution. Treating each live show as a journey with the audience rather than a performance, Intrepid Travelers pride themselves on a form of focused, collective expression that showcases a medium where cerebral musicianship meets heartfelt, soulful songwriting.

2015 was a breakthrough year for Intrepid Travelers with the release of "Flash Drive In A Bottle" and their single "Conquistadors," along with a national tour spanning from neighboring cities in the northeast to west coast dates throughout Colorado, Montana, and Wyoming.

---

*"Improvisation does indeed play a role in Intrepid Travelers' sound, but so to do strong, sturdy and well-conceived songwriting, something in ample evidence on the "Rainbow Monkey?" EP"*

- Jeff Miers - The Buffalo News

*"Intrepid' describes them well: they are fearless and resolute and own their musical style, which is melodious and placid, while improvisational rhythm, solid riffs, keys, and jamming keep it elevated. Fun, fantastical lyrics complete the feel of their live performance, demonstrative of their crafting abilities. I look forward to further exploration of Intrepid Travelers."*

- Mary Mistretta - UpstateLIVE

*"It's a sort of potpourri of jam-oriented funk with elements of bluegrass, jazz, pop and even post-rock at times. The true magic of this band lies in the fact that they all have each other's best interest at heart musically."*

- Shauna Presto - buffaBLOG

*"Intrepid Travelers pride themselves on a form of collective expression of upbeat, groovy jams with roots in funk, jazz, classic rock and a hint of bluegrass."*

- The Vail Daily
